

IN THE CLAIM

Please cancel Claims 1, 2, 4 to 10, without prejudice or disclaimer of the subject matter thereof. Please amend the original claim 3 as the following. The amendment of claim 3 is based on the claims 7 and 8 of the present invention and the features in Figs. 7 and 8 of the present invention. Thereby no new matter is added.

LIST OF CLAIMS:

Claims 1, 2 (Canceled)

Claim 3 (Currently amended) An electronic torsional tool, comprising: a main body; and a strain gauge mounted in the main body; wherein, the main body is provided with an opening to enhance flexibility of the main body and to increase deformation of the strain gauge; and the strain gauge is mounted in the opening of the main body;

wherein the main body is provided with a handle portion and a drive portion located at a distal end of the handle portion, the driving portion being an open ended screwing driver, and the opening is extended through the handle portion and is extended through three sides of the opening ended screwing driver; and the drive portion of the main body and a whole length of the handle portion and the drive portion of the main body; and two ends of the opening are expanded to have larger arcs than other portion of the opening;

and another end of the handle portion having a screw driver with a round hole and teeth being formed on an inner periphery of the round hole.

Claims 4 to 10 (Canceled)
